

Company Sponsorship Packages

Prostate cancer is the second leading cancer-causing death among men, and it is more prevalent in African American men. In 9 out of 10 men, early detection significantly increases their chance of survival. Our goals include raising awareness about prostate cancer and increasing the community's knowledge about the important benefits of early detection as a lifesaver. Prostate cancer has been referenced in the news and in many newspaper articles this year, and it is yet to show a decrease in occurrence. The *American Cancer Society* is putting it as one of their top 4 cancers to be targeted in the next 10 years.

With your monetary contribution you can help us fight this silent killer. The following are some levels of commitment. Thank you in advance for your continued support. Please feel free to contact me in person toll free at 1-866-RUN-4DAD, or via e-mail: run4dad@aol.com.
